

**Saint Bridget School  
832 Worcester Road  
Framingham, MA 01702**

**Open Faculty Position for 2017-18 School Year: General Science, Grades 6-8**

Saint Bridget School seeks an experienced and passionate science educator committed to developing an exemplary science program that fosters deep content knowledge and active intellectual engagement through meaningful inquiry and problem-based learning activities that emulate disciplinary practices and thinking. The ideal candidate will incorporate a wide range of technology to serve as tools to engage students with real-world problem solving, conceptual development, and critical thinking, as well as communication and collaboration. This is a unique opportunity for a qualified and experienced educator to develop and implement a science and engineering program that addresses the nature of science and science practices to prepare knowledge workers for a new economy.

The ideal candidate will have the following qualifications and proven abilities:

- A minimum of a Bachelor's Degree with a major in science
- MA DESE certification in General Science, 5-8
- Working knowledge of the Next Generation Science Standards
- Professional teaching experience teaching at the middle school or secondary level
- Ability to develop units of study that meet the standards for scientific inquiry and technological design
- Ability to develop assessments aligned with 21st Century curriculum and instruction that appropriately measure student progress toward skill acquisition in addition to mastery of core concepts
- Use of instructional methods that include a variety of opportunities for students to investigate and build scientific explanations, such as laboratory experiences
- Excellent classroom management skills

Interested candidates should attach a resume and cover letter to an email addressed to Cathleen Chaves, Principal at [cchaves@saintbridgetschool.info](mailto:cchaves@saintbridgetschool.info).
